Hi,

As I discussed with Greg, I plan to ask contractors to send a conflict of interest request to both ERRS contractors, before issuing the Planning task order workplan request. We will use the PRPs listed below for that COI check.

Thanks, Jo Ann

In anticipation of tasking our prime cleanup contractors, one of the things that we require from them is to identify any potential conflicts of interests with PRPs and such. I know you sent letter to the Army, Explo Systems, Inc., and to General Dynamics. I'm sure our primes need to check out Explo and CD. Are there any others PRPs that they should be aware of?
